2018

Diploma in Web Design and Production (Level 6)

2015

Certificate in Sport and Recreation

2014

Communication Strategies Short Course

2014

Time Management Short Course

PERSONAL STATEMENT

I am highly productive whether it be a collaborative workplace or working remotely. My passion for web development started as an interest in UX design, it grew as I learnt more front-end languages along with the different ways to problem solve using object orientated code. My aim is to have a strong understanding of back-end web development as I do for front-end, and eventually become a full-stack developer.

EXPERIENCE

FREELANCE WEB DEVELOPER

Cornerstone Construction | Nov 2019 - Dec 2019

- Efficient client interaction and communication, ensuring projects are on brief and within the set time frames
- Created wireframes for a rough idea of the design and to present the layout to the client

FREELANCE WEB DEVELOPER

Moonlodge | Apr 2019 - Jun 2019

- Questions asked to understand clients personality so the designs suit the company.
- Created wireframes and prototypes to present to the client.

PERSONAL PROJECT

Personal Portfolio Website | Sep 2018 – Mar 2019

I have worked on this project for a while in my own time and started it half-way through my course. It uses JavaScript and HTML5 Canvas. I haven't felt that I have finished it as I am always improving it in minor or major ways.

HOBBIES

- Running for fun
- Attempting to learn Chinese
- Going on long drives with my wife
